Bass Lake Improvement Association Spring Meeting

Last year there were 50 paid members in the BLIA. The Board will check with other lake associations to see what their membership numbers are.

The lake was stocked in the Fall of 2021 with 1400 fish.

Sandy Ryczkowski will once again head up the Clean Boats/Clean Water Program this year.

The loons are back on the lake and are nesting.

There have multiple fox sitings on the lake, be cautious.

Oconto County opened up the lettered roads for ATV & UTV driving.

There will be well testing available at a reduced rate for BLIA members. The group rate is \$57 with the Association paying \$20 bringing the cost per me member/owner to \$37. This will take the weekend of July 4th. Samples will be dropped off at Wayne's house on the 4th and will be taken to the testing lab on the 5th.

The 4th of July parade will be on Sunday July 3rd at 6:00.

A children's Duck Hunt will be held on Labor Day weekend again this year.

The members voted to once again donate \$50 to the Town of Doty Fire Dept., Mountain Fire/Ambulance and Lakewood Fire/Rescue Department.

Wayne will look into seeing if any of the Septic System companys are interested at giving our members a group rate.

Our condolences to the Pat Johnson and John Hager families. We were saddened by the news of the passing of these long time Bass Lake home owners.

Respectfully Submitted,

Jane Wilz,
Secretary/Treasurer
